CAN I ASK THAT

It is not doubt or hard questions that are toxic to faith—silence is. This semester during UMYF, we will be completing a discussion and study series called, “Can I Ask That.” Our students will ask these questions with our without us. We would rather it be with us. Our dialogue will be centered on scripture and the tradition of our church.

- Can I trust the Bible? -Does the Bible contradict itself?
- Can I be a Christian and believe in evolution? -Is Jesus really the only way to God?
- Does God endorse violence? -How can I follow a God who would let Christians do such bad things?
- Is It wrong to Doubt God? -Is Hell real? How could God send someone there?
- Can I do something so bad God won't forgive me? -Why do bad things happen to good people?
- Why is it so awkward to talk about Jesus with my friends?

THEME—Filters. We use them everyday. They change how we see people, each other, and the world. One swipe can take a picture from good to great, pretty good to perfect, forgettable to profile picture status. What if the same is true of life? What if we all have filters for viewing each other, our futures, and our God? And what if Jesus desires to change those filters? What if He had a revolution in store for us that started with simply how we see? BigStuf 2017 is an invitation to SEE different, BE different. Are you ready to join the movement this summer?
